Technology & Consulting
Data & AI
Digital & Innovation
Success & Growth!

About Us

A global Technology & Consulting company

Kanad Infotech builds and delivers tech-driven, data-focused and AI-enabled solutions that helps companies accelerate business growth, launch innovative products faster, improve operational efficiency and reduce tech spend

Company Overview

Global & Local

Headquartered in India and Global offices in Dubai & London serving clients across Middle East, Europe & USA

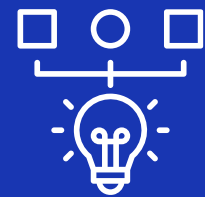

Solutions & Services

Our focus is equal to building solutions and also servicing them for continuous improvement

Diversity & Flexibility

We serve a variety of clients in multiple industry domains providing different services

Successful companies share the same key factors:

Wide Tech Expertise

Digital Transformation, Data Analytics, AI/ML and Enterprise Web/Mobile, our expertise is across a wide spectrum of technology platforms

Vast Experience

Senior/Junior Developers, Solutions Architects, Project Managers, Designers, Testers, Analysts . We have experienced consultants across tech functions

On-time & Within budget

Our Solutions, our Services and our People are class leading and Premium. Our costing and rates - not so much!

Business Models

01

Resource Augmentation

Resource hiring on Monthly basis. Minimum 3 months contract.

Suitable when less than 5 resources required for a short period of time

02

Dedicated Outsourcing

Traditional outsourcing model based on Time & Material. Minimum 6 months contract.

Suitable when 5 to 10 resources needed for mid to long term (6 months & above)

03

ITEC Accelerator Program

Customized program to incubate global companies and setup their dedicated tech hub in India

Suitable when more than 10 resources needed consistently and minimum 1 year vision is defined
